

# HOUSE OF THE WEEK

## Stunning Contemporary Design

©www.ePlans.com

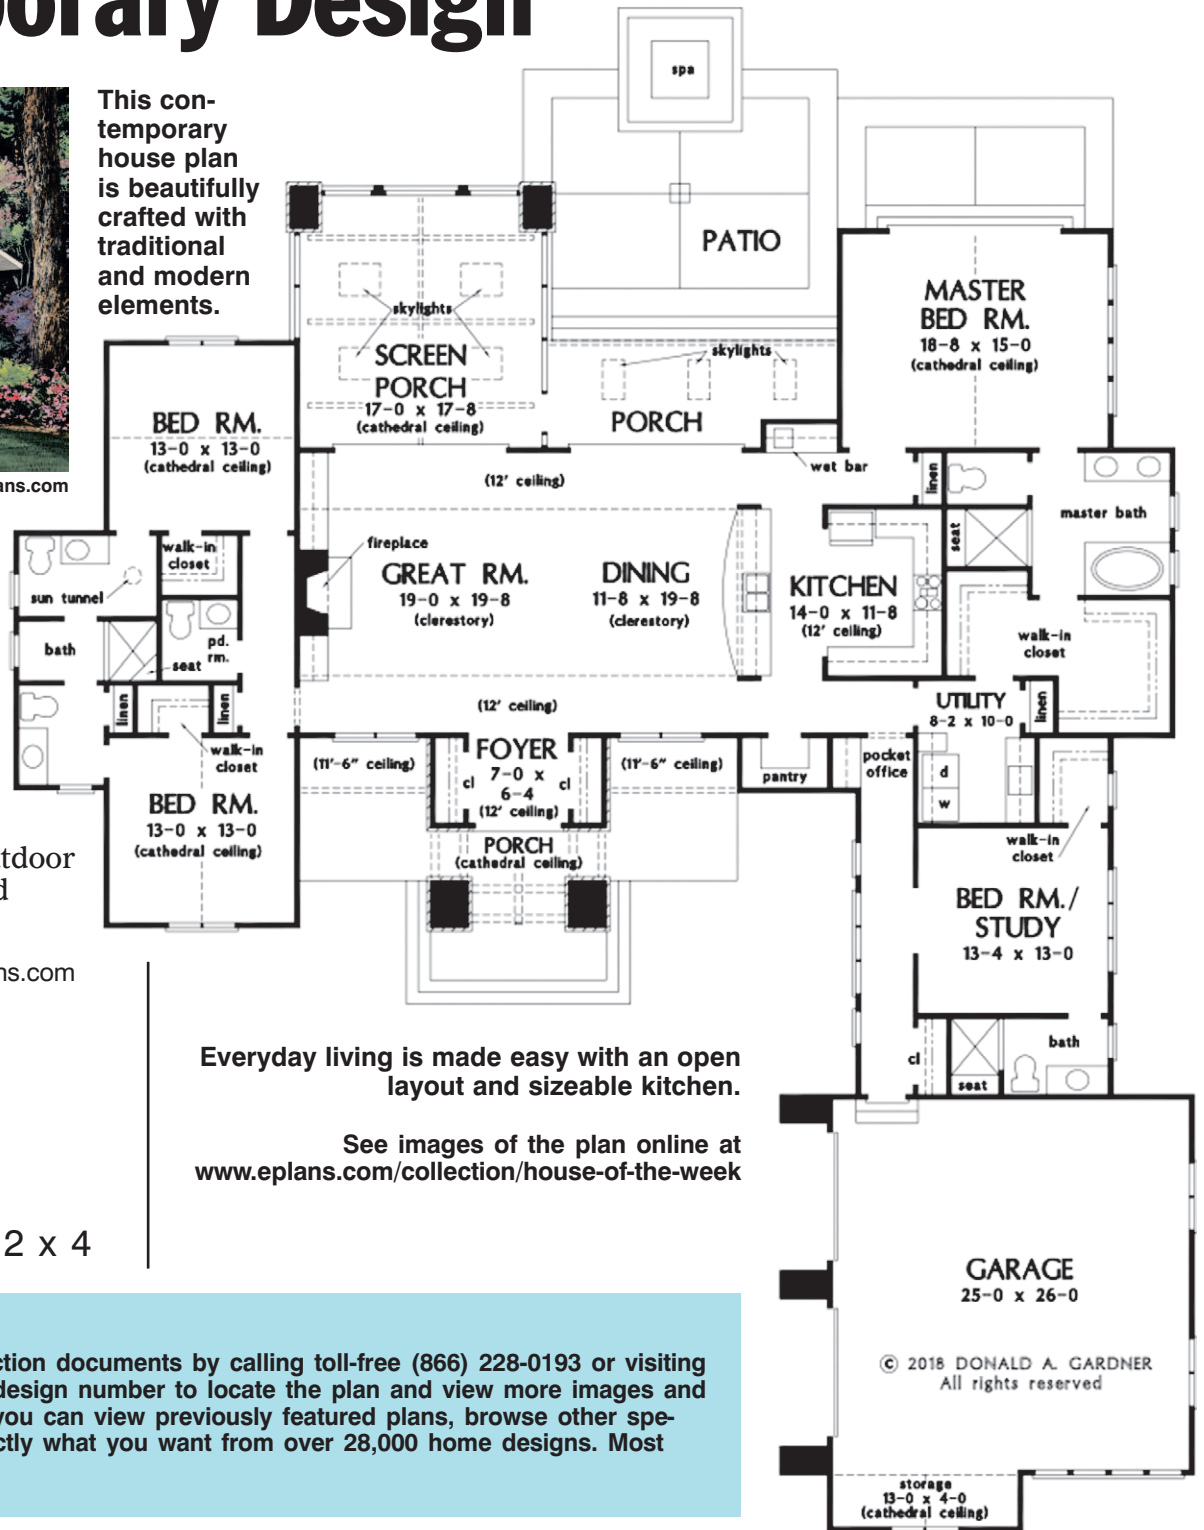

A contemporary layout encourages movement and a sense of community throughout the main living areas in this home design. Bright and airy, the kitchen is loaded with features. The open space and eating bar provide ample opportunities for entertaining friends and family. Conveniently located to the right of the floor plan (away from the other bedrooms), the master suite offers homeowners extra privacy. A flexible bedroom/study has its own bath and could be used as a guest suite, home office, or extra bedroom. Owners will fall head-over-heels for the vast outdoor living space (which features a screen porch, patio, and covered porch).
